

QUALITY POLICY

Nu Form Fire UK Ltd are committed to a policy to ensure that the design, installation and maintenance of sprinkler systems complies with client, LPCB and all statutory requirements and expectations, whilst being commercially viable.

The Quality Management System is designed to ensure compliance with BS EN ISO 9001: 2015, LPCB and other applicable compliance requirements.

The Quality Manual and supporting documentation defines the practices and procedures related to the control of quality and shows how it is an integral part of the Company's management system.

We aim to continually improve our Quality and commercial performance by analysis of past trends and data together with continual research, planning and customer awareness.

Quality objectives and areas for continual improvement are agreed, documented and monitored at Management Review meetings.

Targets and measurement methods are established and monitored at the management review and the Contracts Manager reviews and reports on progress at 6 monthly intervals.

David Carswell (Managing Director)
